Subject: Re: Save Williams Lake

We are committed to repairing the dam

Work will begin this summer

We can not let the lake go another season the way it is.

If it continues the lake will die and so will the Biodiversity of the surrounding area.

Iain Rankin, along with myself and Ali Duale visited the lake because I wanted them to see and understand the issue firsthand.

If the polyform solution doesn't work than we need to dig deeper and find one that does.

I learned to swim at that lake and I bring my children to it.

It is a part of how we identify our community.

Our communities are special because of the people, but also because of the lakes, trails, beaches and outdoor life. Over the last years I have worked hard to conserve, protect and fix.

I want to take a moment to recognize all of the great people who have worked no matter theie political stripes to find a solution for the dam and to protect the lake. It means alot to see the community pull together.

As with the purcells cove backlands, you have a 100% commitment from myself and a liberal government, this will be fixed and you will not have to wait, if re-elected my very first phone call will be to Steve Macissac and NS Lands to start this project.

I want to thank all of you for working with me to find a solution.

Respectfully

Brendan Maguire
